

# HACKABURG Goes Green

TechBase Regensburg | 25.5 - 27.5.2023

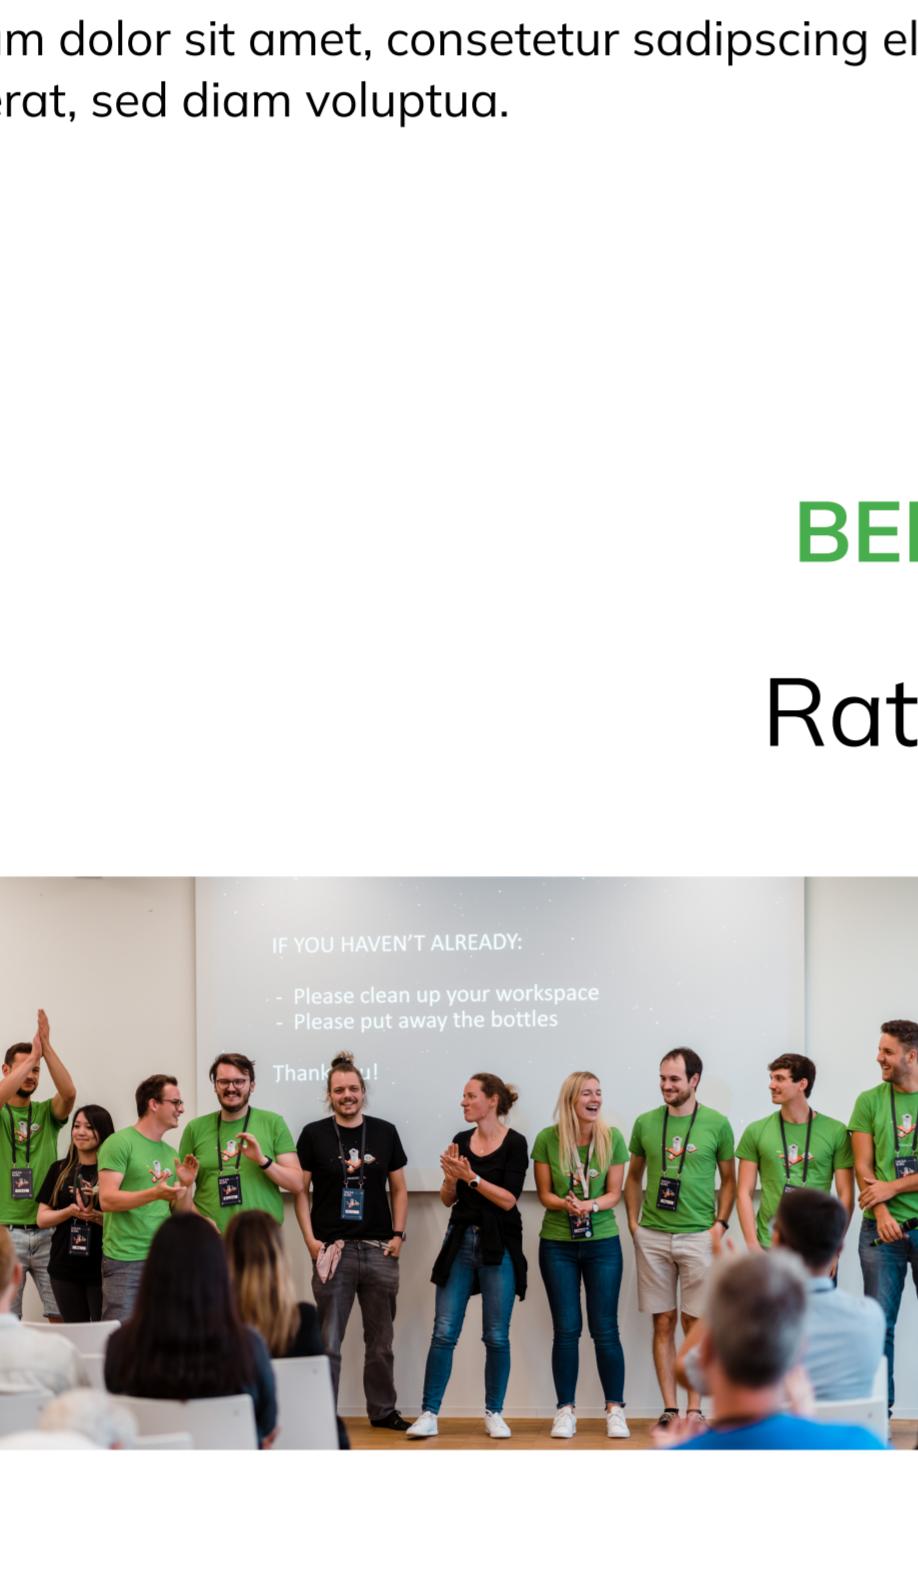

## About

### What is Hackaburg?

Hackaburg is a unique hackathon experience that brings together more than 120 developers, designers and entrepreneurs from around the world.

## Green

### What is our goal this year?

Lorem ipsum dolor sit amet, consetetur sadipscing elitr, sed diam nonumy eirmod tempor invidunt ut labore et dolore magna aliquyam erat, sed diam voluptua.

## BEHIND HACKABURG

### Ratisbona Coding e.V.

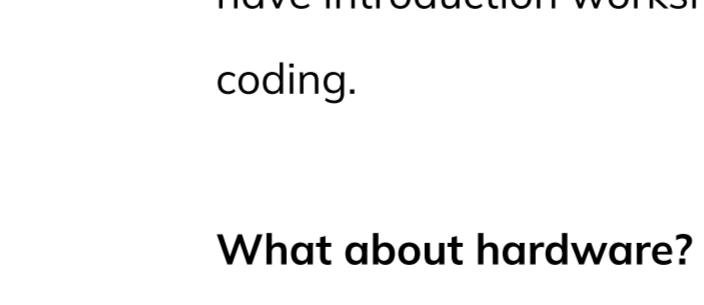

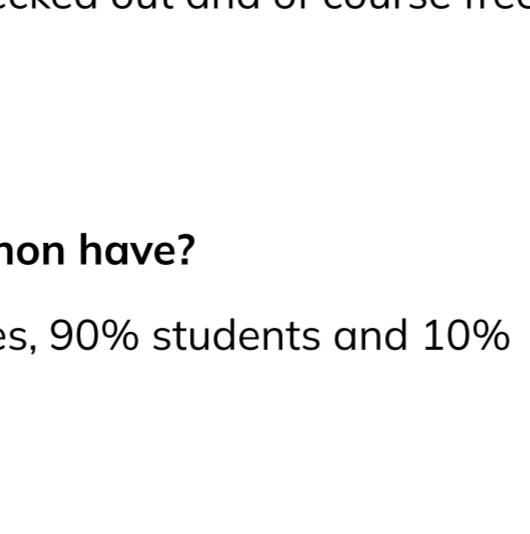

Wir sind der ratisbona-coding e.V., ein gemeinnütziger Verein aus Regensburg. Wir haben uns 2018 aus dem studentischen Organisationsteam des Hackaburg Hackathons gegründet. Wir als junger Verein organisieren neben der Hackaburg noch weitere IT-Events in der Region Regensburg.

## SUPPORTERS

### Without them, Hackaburg would not be possible

## FAQ

### Questions and answers

#### What exactly is a hackathon?

A hackathon is an event in which software developers, designers and entrepreneurs come together and work on an idea for a few days. The event will be sponsored by companies, that means we have exciting prizes and planned key notes for you! There is also a career fair waiting for you to be checked out and of course free food and drinks.

#### How many people will the hackathon have?

We're planning with ~120 attendees, 90% students and 10% professionals! Just apply here!

#### What can I build?

Anything your heart desires! Hardware, web, mobile, gaming: you name it, we'll support it.

#### How do I find a team?

A team has to be smaller than 5 people. On the first day, we will have a short pitch event. That means, you can come with an idea and tell everyone what you're looking for or you get inspired by other people. Maximum team size is 5 but of course you also can work in projects on smaller teams, there is no minimum size.

#### Overnight Stay?

Sure! We'll provide beds as required at a local hostel (maximum 30).

#### Do I have to be a programmer to attend?

NO! We're looking for a diverse group of people who want to work on an idea for a few days. You're a designer? Help create the user interface. You're a business rockstar? Help create a business or customer plan. You want to try coding for the first time? We will have introduction workshops that will give you a first glance about coding.

#### What about hardware?

We'll have a hardware lounge with plenty of boards, tools, and gadgets for you to check out!

#### Headstart?

Only projects started at the hackathon will be eligible for prizes.

#### What should I bring to the event?

Your computer (laptop or desktop), any electronics you want to use, chargers, toiletries and a sleeping bag or blanket and pillow if you're planning to stay over night and we hope you will! And of course, your student ID.

#### Will there be travel reimbursements available?

Yes! If you're coming from outside the Oberpfalz, it's possible to apply for reimbursement to cover some of your travel expenses. This also includes an overnight stay from Saturday to Sunday if you can't reasonably get home after the event. Depending on where you come from, the reimbursement can be up to:

- Bavaria (outside of the Oberpfalz): 25€

- Germany: 40€

- Rest of Europe (SEPA area): 75€

Important note: We can only transfer money in the SEPA area! Thus, be ready to provide your travel receipts and bank address.

Are there any restrictions regarding the COVID-19 situation?

Yes. This event will be held with a 2G-concept.

**RATISBONA CODING e.V.**

Schön, dass ihr auf unserer Website vorbeigeschaut habt. Mehr über uns findet ihr auf unseren Social-Media Kanälen.
